## Abstract

Your abstract.

## 1 Introduction

Your introduction goes here! Simply start writing your document and use the Recompile button to view the updated PDF preview.

## 2 Some examples to get started

### 2.1 How to include Figures

First you have to upload the image file from your computer. Then use the `includegraphics` command to include it in your document. See the code for Figure ?? below.

Figure 1: This frog was uploaded via the file-tree menu.

As you can see in Figure ??, the image is now included in the document.

### 2.2 How to add Tables

Use the `table` and `tabular` environments for basic tables — see Table ??, for example.

Item	Quantity
Widgets	42
Gadgets	13

Table 1: An example table.

## 2.3 How to add Lists

You can make lists with automatic numbering:

1. Like this,
2. and like this.

Or bullet points:

- Like this,
- and like this.

## 2.4 How to write Mathematics

L<sup>A</sup>T<sub>E</sub>X is great at typesetting mathematics. Let  $X_1, X_2, \dots, X_n$  be a sequence of independent and identically distributed random variables with  $E[X_i] = \mu$  and  $\text{Var}[X_i] = \sigma^2 < \infty$ , and let

$$S_n = \frac{X_1 + X_2 + \dots + X_n}{n} = \frac{1}{n} \sum_i^n X_i$$

denote their mean.

## 3 Conclusion

We hope you find this document useful!
